Description

This is a very fun game for all skill levels. Split up into two teams. In this diagram, there is a green team and an orange team. There are four lines as shown with equal players in each line. Pucks should be given to each line and then a group of pucks should also be placed in between the hash marks in each zone. On the whistle, P1 on each team receives a pass from P2 (diagonal pass). When P1 receives it they go in for a breakaway on the opposite goalie. If the player scores, their teammate (P2) picks up a puck right away and goes in for their breakaway shot. If the player misses, they must retrieve a puck from between the hash marks in the zone and deliver it to P2, P2 can then go. Play can go until one team scores a certain number of goals, or you can play for a set amount of time.
